

MEHER BABA
The Lyrics

EVERLOVING ARMS

How could a man who's sailed the seven seas
Go all that way and then come back to me
He's given me rain when my river runs dry
Wind in my sails and the sun in the sky never fails

But in your everloving arms
That's where I wanna be
In your everloving arms
Now there's no turning back for me
In your everloving arms
That's where I wanna be
In your everloving arms

I hear them say any port in a storm
But when I get cold I know he'll keep me warm
I see it in his smile feeling his love
Feeling so high but I feel that its all not enough

Cos in your everloving arms
That's where I wanna be
In your everloving arms
Now there's no turning back for me
In your everloving arms
That's where I wanna be
In your everloving arms

A MILLION YEARS

I feel the sunlight shining down on my face
Spring is just a cold winters dream
Nothings gonna change
Nothings gonna change this in a million years

And when I'm lost and there's no light to be found
You will come and show me the way
Nothings gonna change
Nothings gonna change this in a million years
I look into the sky and see the stars above
I look into your eyes and all I see is love
And through the darkness and the veil of tears

Gazing at the light of the moon
Nothings gonna change
Nothings gonna change this in a million years
Cos all I see is you

EMBRACE THE MYSTERY

Hear my prayer
And let it come unto thee
Lord help me to forgive
And embrace the mystery

Hear my prayer
And let it come unto thee
Lord help me to forgive
And embrace the mystery

WITHOUT YOUR LOVE

You can show me the way
Give me a sunny day
But what does it mean without your love
If I could travel far
If I could touch the stars
Where would I be without your love.

Whenever I get to feel down and out
I think about what you said and then I give up

If I could fly away
If I could sail today
Where would I go without your love

And if I ever wander away too far
You come looking for me with open arms

I could forget my home
Just like a rolling stone
But who would I be without your love

PORTOFINO

Instrumental from the film: Baba In Italy

MYSTIC MUSE

The vase has broken and the garden door is open
The roses perfume lingers in the air
And though it seems you've gone and not a word was
spoken
The silent mystic muse is everywhere

And I feel your love in everything
And I see your love in everything
Just like the beads upon a string

Sometimes I'm all at sea and searching for direction
Don't even know what I've been looking for
Maybe the one I seek is not on the horizon
Like those white horses breaking on the shore

And I feel your love in everything
And I see your love in everything
Just like the beads upon a string

HEAVEN COME QUICKLY

Spring again, and I'm losing my way
Every year I do the same
Summer ends and I try make amends
Watch the teardrops on your face

Like a leaf falling helplessly
Burnt by the sunlight
Blown by the blue sky
In the winter you cover me
Every time

So why am I lonely, why am I blue
Why don't I love you like I should
Heaven come quickly
Unlock your door
You're making me feel like I've lived before

THEN I SAW WHITE HORSES

I've looked for a heart that has never been broken
Seen every star in the sky
Searched for the gate that has never been opened
The other man's garden was greener than mine

I've lost everything that I thought I was winning
After the fire had burned
I found in the end it was just the beginning
I had to forget everything that I'd learned

Then I saw white horses out there on the ocean
Under a dark blue sky
The waves turned to laughter
And there was the answer all the time
This love is never gonna die

There's only one heart that can never be broken
Always a star in the sky
Behind every gate there's another man's garden
And ever the story goes round and around

Cause I've seen white horses out there on the ocean
Under a dark blue sky
The waves turned to laughter
And there was the answer all the time
This love is never gonna die

LOVE FINDS YOU

Love can be wonderful
Love can be kind
Love can guide you but
Love can make you blind
When your down and out with nothing left to loose
Love finds you
Love is the sweetest thing
Love can go sour
Love can give you wings
Love can make you drown
When a friendship breaks

Then finds itself renewed
Love finds you

Why is it so contagious
Why is it so vivacious
Something that you can't buy
Only a fool would try

There ain't a remedy
We're all at risk
Memory fades but you
Must remember this
If you're searching all alone without a clue
Love finds you

FOREVER'S NO TIME AT ALL

And nothing sure is forever
When forever's no time at all
As I lie amongst the heather bed
High above the ocean's roar

I seem to hear my name being called
Yet who am I waiting for
And I love the lover who loves with
All the love he has and more

And now that the summer's ending
And your baby cries out to sea
I do feel that I am drowning in
The love that you're sending me

(Lyrics by Kate McInnerney)

CAVE CRY
Instrumental from the film: Baba In Italy

WARRIOR

Paint me like a Zulu
Throw me to the lions
There ain't nothing left to frighten me
Besides I'm a warrior for you
I'm a warrior for you

Kick me in the deep end
Send me to the stars
You won't see no difference
Maybe It's because
I'm a warrior for you
I'm a warrior for you

I don't need a bow
Silver or gold, chariot of fire
The story, we know
Getting retold, twisted and tired

I'm a warrior for you
I'm a warrior for you.

You know I'm convicted
Put me to the test
Just show me the wicket
Time will do the rest
I'm a warrior for you
I'm a warrior for you

I think it's a shame
Hearing your name
Spoken in anger
They're racking their brains
Trying to explain questions and answers

I'm a warrior for you
I'm a worrier for you

GUARDIAN ANGEL

The curtains coming down
It's time to leave the stage
The actors and the clowns
Have no more parts to play

I've got to learn how to forgive
And make a brand new start
Maybe I'll find that love can pierce
This vacuum round my heart

Reach out you guardian angel please
If you're looking after me
Come and wake me from this dream

I know I've taken so much time
But there's this feeling deep inside
And it's so hard to say good-bye

ALONE AGAIN

Alone again
And the blue sky has disappeared
All alone again
But it feels like you will always be here
I picture your face
Smiling at me
Wondering why you came and then went away

Alone again
With the clouds overtaking me
Darkness in the rain
But I'm gonna try
And sail on through it

And maybe you will follow
And hold me through the night
Sunrise drifting to a place
Where the ocean meets the sky

Alone on a stormy sea
Then you came along and found me there
One moment of tranquillity
If I could only make it last forever
